Brotherly Affection.

In the reign of Queen Anne, a soldiar, belonging to the marching regiment which was quartered in the city of Worcerter, was taken up for desertion, and, being tried by a court-martial, was sentenced to be shot.—The Colonel and lieutenant-colonel, being that that time, in Lendon the command of at that time in London, the command of the regiment had descended in course to the major, a most cruel and inhuman man. The day on which the desertes was to be exe-cuted having arrived, the regiment, as is usual on these occasions, was drawn out to see the excention.

see the excention.

It is the ensum on these occasions for the several corrorals for this disagreticable office; and when every one expected to see these lots as usual, they were surprised to find that the major had given orders that the prisoner should die by the hand of his own brother, who was only a private man in the same company; and who, when the cruel order artifeed, was taking leave of his unhappy brother, and, with tears fast flowing, that expressed the anguish of his soul, was hanging for the last time about his neck. ne.k.

On his knees did the poor fellow beg that he might not have a hand in his broth that he might not have a hand in his brother's death; and the poor prisoner, forgetting for the moment his petitions to Leaven, begged to die by any hands but those of a horiber. The unrelenting officer, however, could by no means be prevailed on to revoe this cau I sentence, though entreated to do so by every officer of the regiment; on the contrary, he swore that the brother, and he only, should be the executioner, if it were merely for example's sake, to make justice appear more terriable. When much time had been wasted in fruitless endeavors to soften the rigor of this inhuman sentence, the prisoner prepared to die, and the prothe-

The major, strict to the maxims of cruelty, stand close to see that the piece was roperly loaded, which, being done, he directs that the third motion of his cauce shall be the signal to fire. Accordingly, at the nird motion the major (instead of the prismer) received the bullet through his own aend, and fell liteless to the ground.

The man no scoper discharged the piece. The man no sooner discharged the piece, han, throwing it on the ground, he ex-

We clip the following notice of the dedicotton of a New Hall, from the Boston Arramal, and publish it that our citizens may we what other towns are doing. We have h v a "Mechanics'" Society, and two Associates, which could be accomodated in one building, if they had the car gy to carry the matter forward. There is no reason why Newport should be the Intel place to adopt any improvements. She was long ago among the first, and she has brooded long enough over past glories, to ailord to shew some little spirit of progress Who will be the "ICHABOD WASHBURN" of Newport, and take the lead in this matter?

A Gala Day in Worcester-Dedication bail. The jewels were worth \$16,000. of the New Mechanics' Hall.

Yesterday was a gala day with the enterprising, intelligent mechanics of the heart of the Commonwealth, it being the day set apart for the dedication of their new and splendid building on Main street. A more enpleasant day, so far as regards the weather, could not have been selected. The rain fell fast and continuously during the day, but it seemed not in the least to dampen the arder of the mechanics and their wives and daughters in the festivities of the Had as the weather was, the Hall was filled had it been pleasant, there would probably face been hundreds who would have been disappointed in their desire to get inside the half to participate in the interesting exer-

The doors of the Hall were opened at 1 colock, and the company began immediately assemble. While they are so doing, we will give our readers a short description of -plendid building:

DESCRIPTION OF THE BUILDING.

The building is located on Main street on the estate long owned and occupied by Han. Doniel Waldo, and is beyond dispute the finest building of a public character in the city of Worcester. It is one hundred that and five inches on Main street, and ex-tending back 80 feet, is the full width of the ter. Then the building diminishes to 85 feet in width, and then extends back 65 feet ing the entire length of the building axing the entire length of the building of feet. The basement story is divided in a partments. Five of them are used in emection with the stores above them, and rethe accommodation of the heating approximate of the building. The other is 80% by 65. It is only 3 feet below the deep of the lot at the east end of the ledding, and is intended to be used for the ding, and is intended to be used for the hibition of machinery at the time of hold-linits. Power can be easily introduced ino this room from the steam boiler used

in heating the halling.

The Hall is lighted from the ceiling by 28 star pendants, containg in all 192 burners; also by one burner; to each pair of brackets under the gallery. In the ceiling, directly over each star pendant, is an ornamental yentilating register for the rentilation of the Hall. Through the attic the ventilation has been carried by suitable wood conductors leading to properly finished openings in the roof. In rear of the Speaker's platform there has also been, commodiously linished, a water closet. The water-closets are all well sumiled with water first the star of the star supplied with water from the city aquiduet, The Hall will comfortably seat 2500 persons. Yesterday being the first time it was used, some curiosity was felt to know how it would be for hearing. A gentleman who was at the remotest part of the Hall during the exercises, said he could hear with perfeet clearness and distinctnes.

On Saturday afternoon a driver left his carriage in Thames street, and went into a stoor; the horses, becoming frightened, started off, when Mr. Silas E. Wood, who was passing at the time, rushed up and stopped the horses. Had it not been for his timely and heroic aid, the two ladies in the carriage might have been seriously injured.

Two handsome young men are under arrest in New York for smuggling diamonds from Antwerp. They attempted a sale of their rough jewels to one who appeared to be a rough customer, but who turned out to be a policeman. They were arrested and for want of bail committed, although a pair of black eyes appealed in their behalf before the District Attorney, and testified to their respectability at home. The Attorney was almost overcome, and would have yielded, but for the little circumstance of

A melancholy suicide occurred in Fairfield, Ct., on Monday last. It was a melancholy day for the people of Hamilton, Canada, on Sunday. The services in most of the churches partook of the character of funeral sermons. The church bells were tolled and the general excitement continued as intense and agonizing as ever. As the hearses passed by bearing the victims to their last home, the scene was gloomy and sorrowful in the ex-treme. The whole city was in mourning.

Two smart rogues named Dow and Haskell, arrested in New Bedford for larceny, who had been tried, convicted, chained, and on the point of imprisonment, slipped from the care of their keepers yesterday, and are now at large.

W. E. Wormold, of Meadville, Pa., has a watch which was once carried by Cromwell.

It is a huge concern. Four of our common watches could easily be put inside the case. Beneath the face is marked "O. C. 1621." Mr. W. has been offered five hundred dollars for the watch. He intends placing it in the archives of some historical society for preservation.

THE REACTIFUL.—Never lose an opportunity of seeing mything beautiful. Beauty is God's handwriting—a wayside sacrament: welcome it in every face, every fair sky, every fair flower; and thank Him for it, the fountain of all landings, and defall it in fountain of all loveliness, and drink it in, simply carnestly, with all your eyes; 'tis a charming draught, a cup of blessing.

Mr. Robert M. Pattick, 192 Pearl-st.

Dean Sir.—The Defiance Safe, No. 5,778, purenased from you about eighteen months since, was in my house at Newport, R. I., which, with the furniture, was entirely destroyed by fire on the night of the 5th June last. The Safe, after being exposed to an immense heat for many hours, was recovered on the 10th of June. Not having the necessary tools at hand to open it, the same has stood just as when recovered, until shipped to your store this morning. I was agreeably surprised, as were also others prosent, to find the conents, consisting of valuable silver plate, &c., in as perfect order as when placed therin. It is with pleasure I add my testimony to the merits of the Safes of your menufacture. Yours, respectfully, Daniel Panisu.

DAVIS' PAIN KILLER.

Brooklyn, Conn., June 15, 1854.

FDIEND DAVIS:—Although a stranger to you, I take the liberty of addressing a few lines to you, for the purpose of saying a few words in favor of your invaluable medicine. I have used your Pain Killer for a number of years, and for howel complaint and hurns, and in fact for pains of all kinds, I think it pre-eminent,—Before I became acquainted with your medicine, I had a violent attack of dyscutery, which reduced nie very low, in fact roy fitends thought I could not survive, but by the treatment of a Botanie Physician, the best remedy I then knew, I recovered. Since then, I have had several attacks, one very violent, shout four years ago, I was attached at 3 three o'clock in the morning, and at sunrise, I was not able to get off my bed, I sent and got a twenty-five cent bottle of your Pain Killer, which I commenced taking, according to directions, and at six o'clock in the evening my bowels were regular, and I was up and moving about, although somewhat weak. I would recommend to all similarily afflicted, to avail themselves of your invaluable medicine.

I am sit, yours respectfulit,

ELMER WILLIAMS.

The genunine Perry Davis' Pain Killer is now put up in pannel hottles, with the words Davis' Vegetable Pain Killer blown in the glass; and with two steel engraved lables on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved unite of hand—none others can be relied upon as genuine. NEW YOR, NO. 4th, 1856.

Mr. RORT. M. PATRICK, 192 Pearl-st.
DEAR SIR:—The Defiance Safe, No. 5,778, purchased from you about eighteen mondes since, was in my house at Newport, R. I., which, with the furniture, was emirely destroyed by fire on the night of 5th the June last. The Safe, after being expased to an intensa heat for many hours, was recovered on the fifth of June. Not having the necessary tools at hand to open it, the same heas stood just as when recovered, until shipped to your address, Nov. 184. When upened at your store this morning, I was agreeably surprised, as were also others present, to find the contents, consisting of valuable sliver plate, &c., in as perfect order as when placed therein. It is with pleasure I add my testimony to the merits of the Safes of your manufacture. Yours, Respectfully,

Soun Lakes-Near the western limit of Jefferson county is the natural phenomenon of a "fountain of Lemonade." The supply is abundant, and a barrack has been built is abundant, and a barrack has been built for summer visitors, who frequent the spring for the relief of every variety of disease—a cure, provided the use of the waters be sufficiently preserved in, being guaranteed by the proprietor. There are, certainly attractions in the cool shade, the gulf-breeze, the agreeable beverage, and the limped bath, that should draw a throng, were the spot made accessible. There are two springs, of cold, clean, acid, slightly astringent water. cold, clear, acid, slightly astringent water boiling with the outburst of an inflamable ges, having a slight ador of an unkamane ges, having a slight ador of sulphurretted hydrogen. The overflow forms a pond of an acre in extent, which gives to the locality its name of "Sour Lake." Upon the banks and bottom is a deposit of sulphur. The approach to the rude bathing house is over a loggy margin, see ding up a strong bitu-nizous plar, mon gools in which rises, a minous odor, mon pools in which rises a deuse brown transparent liquid, described as having the properties of the Persian and talian naphthas.—Olmstead Texas.

Ayer's Cathartic Pills.

 $T^{\rm HE}$ sciences of Chemistry and Medicine have been taxed their mirrors to produce this best, most perfect purpative which is known to man. Innumerable principal are shown that these Pills have Virtues which surpass in excellence the ordinary medicines, and that they win un-precedentedly upon the esteem of all men. They are such and pleasant to take, but powerful to cures. Their pene-trating properties ethnulate the vital activities of the lody, remove the obstructions of its organs, parify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate singgish or discr dered organs into their natural action, and impart healthy tone with strength to the whole system. Not only de they care the every-day complaints of every body, but they care the exery-day complaints of every body, but also formidable and dangerous diseases that have buffled the last of human skill. While they produce powerful effects, they are at the some time, in diminished dozes, the axiest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take: and being purely vegetable, are free from any risk of huma. Cure have been made which surpass belief were they not sub-stantilated by men of such exalted position and character as to feebld the suspicion of untruth. Many eminent elegymen and physiciane have lent their manus to certi-fy to the public the reliability of my remedics, while oth-ers have sent me the assurance of their conviction that my Preparations contribute immensity to the relief of my preparations contribute immensity to the relief of my my Preparations contribute immensely to the relief of my afflicted, suffering follows:

BROWNELL'S VENTILATOR. PATENTED, SEPT. 16, 1856.

Herewith you are presented with a list of sizes with the price of each nonexel, of BROWNELL'S PATENT VENTILATOR for all purposes where ventilation and a strong dark an experience of the price of the property of the price of the property of the price of the p are required; and are particularly de ed for Hall Road Cans, Public Builds, SNOKEY CHIMNIES, and Caboose and Public Public Caboose and

Nos. Saoner Chimnies, and Carouse and Cann Phys.

The advantage proposed by this ventilator over all others is, it gives a uniform draft to a chimney, and at the same time excludes water thus doing away with two great evils—a back draft and drippings down the chimney. The strangement of the ventilator is very simple; it can be easily adjusted to any use for which it may be required, and it is not liable to get out of order.

THE GREATEST WONDER OF THE

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE MINUTES.—M. LEROUX'S French Chaltera Cognae Bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the bost reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remetly against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best praof of it is, that since this standard remedy was introduced in the armica of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent; in even sideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Lecoux, the great chemist and inventor, by whose knowledge our armics are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon heing taken, it creates appetite, and prevents the heaviness attendant upon cating by persons who are dyspeptic.

In this city, also this remedy has been tried

the heartness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its innediate and complete success, which he will be happy at any time to show to any that may wish to see them.

S. STEINFELD, Sole Agents for the United States, 70 Nassan street, corner of John, N. Y.

P. S.—Those not able to pay, may call at my place from 3 to 5 p. m., and receive this remedy gratis.

PRATT'S LIGHTNING RODS—With branched and other points made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. as a spurious initution made of cast rron, and sold last year by some dealers in lightning rods.

Also, fixtures for a new and valuable improvement in applying insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and elicetually preventing the electrical fluid from being conducted by iron surveys and drives into the seam.

The following recommendations have been furnished gratuitously:

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a dauger which must be regarded as of no ordinary magnitude, to which all buildings are liable. B. SILLIMAN, Jr. Prof. of Chem. in the Univ. of Louisville

This will certify that I have examined the Lightning Roots, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper, Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

PROFESSOR WOOD offers for sale perfect HAIR RESTORATIVE. It in a short time restore the Hair, which ha become gray prematurely, to its original culo; bring it out where it is gone, and mresti when it is falling offer-deamse the head of dandruff and itchings—remove all entancous eruptions, and render the scalp perfectly healthy, by restoring the secretive organs to their nrightal vigor and strength, and thus supply natriment and coloning matter to the roots. It does not Dye the hair, but is, in short a perfect Hair Invigorator and Tonic.

To the young, who so much admire the beau tiful becks and ringlet, the feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is in discard all cologine and stimulating oils for the bair, and keep always upon the toilet a bottle of the Riestorative for occasional use and we can safely predict, that henceforth silver locks will be upon hald heads. Let the dark eye be ever so piercing,—and the teeth be those of pent—still, if the natural fluids be withheld from the hair, and in consequence becomes first dead and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a sovereign remedy for those who are gray as well as those who are bald, all must see the propriety of making only sich application to the lair and scalp us is calculated to preserve both in a healthy state.

Boston, March 20, 1855.

Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great, hopes that in a short time my hair will be used ank us furmerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir—I take pleasure in hearing voluntary testimony to the magic effects of your wonderful Hair Restor ative. As far back as 1856 my hair commenced failing off until the tup of my scalp became hald and smooth as glass, and it has continued to fall off for a great many years, notwith standing I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and assured by very glossy and becautiful appearance; and at the time I had used a quart bottle, my hald head was covered over with a young and vigorous growth of lair, which is now from one to two inches in length, and growing very fast.

Yours, trult,
